This offer is supported by Grant No. DE-RW0000226, awarded by the Office of Energy Efficiency and Renewable Energy, Department of Energy to the City of Lacey. Grant funds are administered by Thurston Energy for use in Lacey homes and businesses.

HOMEPLUS™ EVALUATION REBATE APPLICATION INSTRUCTIONS

Please complete all information on the reverse of this form. One form may be used for multiple expenses. You can mail or fax your rebate application to us. If you have questions or need assistance filling out this form, please free to contact Thurston Energy at (360) 528-2112 or (360) 754-6320, and we will be happy to assist you.

After completing the rebate form, attach copies of all invoices or receipts you have for energy efficiency upgrades that were performed on your home. Documentation that you submit must include:

- a: The date(s) of service
- b: A description of services performed or product purchased
- c: The total cost of the service performed or product purchased

Hand-written invoices will not be accepted without contact information of the service provider or product vendor included. Please retain originals of the invoices/receipts that you submit for your personal records. Original receipts will not be returned to you. Incomplete rebate application forms or those received without proper documentation attached will not be processed. You will be notified if you application is not processed.

ELIGIBLE ENERGY EFFICIENCY UPGRADES & TECHNOLOGIES

Efficiency upgrades performed either by the resident (DIY) or by a contractor are eligible, and must be completed within 120 days of an energy evaluation (or before July 31, 2012) in order to qualify. If an upgrade you plan on doing is not on this list, please contact us to find out if it will qualify. Qualifying upgrades include:

- Air sealing/air infiltration repair
- Insulation upgrades (attic/ceiling, floor, wall, basement/crawlspace)
- Duct sealing and insulation
- Upgrading doors & windows to energy efficient models (includes window films, insulating curtains & blinds, and storm windows)
- Water heater upgrades
- HVAC, heating and cooling system upgrades
- Major appliance upgrades to EnergyStar models (refrigerator, dishwasher, clothes washer/dryer)
- Heat source conversion (e.g., from oil heat to electric heat pump)
- Upgrading water fixtures to high-efficiency showerheads & toilets, installing faucet aerators, repairing water leaks
